ONE SOLUTION FOR ALL

While the food and drink brings people into a restaurant or bar, the overall experience is what keeps customers coming back. HARMAN's comprehensive bar and restaurant solutions allow venues to differentiate themselves, delivering their perfect vision for every space.

COMMON HARMAN APPLICATIONS IN BAR AND RESTAURANT SPACES

Audio Processing and Distribution
Loudspeakers
Architectural Lighting

Video Signal Distribution
Digital Signage
Control and Automation

CREATING THE POPULAR HOTSPOT

HARMAN audio, video, lighting, and control technology combines to deliver one-of-a-kind entertainment solutions. With industry-leading, simple-to-use technology solutions, we deliver unique entertainment experiences that work great in every space and are easy to operate and manage.

BAR

Entertain and Inform

In the bar area, guests can grab a drink while watching the latest sporting event and waiting for the restaurant to call their table. With HARMAN's video distribution and sound reinforcement technologies, the bar area can provide an unmatched atmosphere.

DINING AREA

Make Dining an Experience

Whether for an upscale restaurant, casual dining space, or an immersive, themed environment, providing the perfect dining experience with simple-to-use HARMAN audio, video, and lighting solutions encourages guests to enjoy their visit for longer periods and keeps them coming back.

EXTERIOR

The Perfect First Impression

A bar or restaurant's exterior can impact guests before they even walk through the door. HARMAN architectural lighting and digital signage solutions enhance the existing architecture while reinforcing the brand, creating a signature experience.

RESTROOMS

A Solution for Every Space

Restroom areas in bars and restaurants are an important, if often overlooked part of the overall experience. With HARMAN's audio zoning and sound shaping technologies, even reverberant areas like restrooms can have crystal-clear sound, ensuring guests can hear when their table is called.

PATIO

Next-Level Entertainment

Outdoor areas such as patios provide the ultimate mixture of atmosphere and entertainment that creates that unique experience guests love. With technologies designed specifically to work outdoors, HARMAN audio, video, and lighting solutions are able to keep the party going no matter the weather.

WAITING AREA

Connect With Guests

The waiting area is designed to set the mood while ensuring the wait is as painless as possible. HARMAN technology, such as video, background music, and architectural lighting, can help craft the overall experience and start the evening off on the right foot, while zoned public address solutions alert guests in the waiting area of available tables without intruding into the dining areas.

WORLDWIDE SOLUTION SUPPORT

HARMAN HAS SALES OFFICES AROUND THE GLOBE READY TO HELP

Wherever you are, you can always contact us. We have dedicated team members ready and knowledgeable around the world who know our products inside-out.
