INSPIRING THE NEXT GENERATION

HARMAN Professional Solutions is the world's largest professional audio, video, lighting, and control manufacturer. We are shaping the transformation of Secondary and primary education through bold innovations that enable teachers to engage with students using simple-to-manage technology integrated into efficient, connected learning environments.

ADMINISTRATION OFFICE

Empower the Campus

Administrators have an array of choices to fit their needs and budget from the best brands in audio, video, lighting and control, including the ability to stream distributed audio and video right from the Administration Office throughout the entire campus.

CLASSROOM

Connecting Teacher and Students

HARMAN technology supports interactive learning in the classroom with strategically placed classroom loudspeakers, simplified environmental, volume and lighting controls and direct access to distributed audio and video from the administrative office.

FLIPPED CLASSROOM

Engage Learners In-Room and Beyond

Reach beyond the local class to collaborate with students anywhere in the world with HARMAN flipped classroom technology featuring affordable, no maintenance, no hassle, web conferencing and classroom collaboration.

CAFETERIA / MULTI-PURPOSE ROOM

Flexible Space to Maximize Budget

Multi-use event spaces are crucial to support the needs of the student body with minimal budget. The right mix of audiovisual components, lighting and control solutions facilitate highly effective and impactful use of these spaces and can be easily configured to accommodate for divisible walls and moveable furniture.

GYMNASIUM

Where the Action Happens

HARMAN audio, video and lighting solutions bring out the best for any performance. Whether it's sports or music, HARMAN ensures the action looks and sounds its best, providing spectators with an experience they'll never forget.

AUDITORIUM

Present – Collaborate – Share

These large-scale teaching spaces are built to serve high-capacity classes with department-specific needs. HARMAN technology allows instructors to teach using content from room PCs, document cameras, and mobile devices to a variety of displays, sound systems and video systems.
