

YOUR ONE SOLUTION FOR

A man in a dark suit and tie is shown in profile, looking towards the right. He is holding a tablet computer with both hands. The tablet displays a bar chart with blue bars of varying heights. He is standing behind a podium, and a microphone is visible in front of him. In the background, other people in business attire are seated at tables, suggesting a conference or trade show setting. The lighting is professional, with a focus on the man in the foreground.

DELIVERING MISSION-CRITICAL SOLUTIONS

HARMAN Professional Solutions is the world's largest professional audio, video, lighting, and control manufacturer in the world. We are shaping the transformation of government communications through bold innovations that enable personnel to achieve their objectives with secure and simple-to-manage technology integrated into efficient, connected environments.

AUDITORIUM

Perfect Presentations Every Time

An auditorium is capable of hosting a large quantity of attendees, with events often live streamed and recorded for later use. HARMAN offers a complete solution for these spaces, including sound reinforcement, video distribution, professional lighting, and seamlessly integrated system control.

CAFETERIA / MULTIPURPOSE

High Impact at a Low Cost

Cafeterias are where members of the staff eat lunch, catch up on the day's news and chat with colleagues. These spaces can also serve other needs, including presentations, parties, and other events. HARMAN technology converts this space into a flexible and versatile multipurpose space.

CONFERENCE / EXECUTIVE BRIEFING

Present - Collaborate - Share

The conference room is the heart and soul of the governing process, where important discussions are held and critical decisions are made. HARMAN technology ensures that productive meetings can be launched instantly, maximizing meeting time and empowering effective collaboration.

OPERATIONS CENTER

Accurate, Dependable, Clear

The top priority of any emergency operations center is to ensure crises are managed effectively, efficiently, and safely. HARMAN technologies ensure redundant, fail-safe systems, clear AV distribution, and instantaneous global conferencing.

COURTROOM

Empowering Justice

Modern courtrooms rely on audio, video, and control technology to ensure that legal matters can be argued, judged, and settled as fairly as possible. Tested to military standards, HARMAN technology is relied upon day in and day out in many of the world's highest courts.

SOUND REINFORCEMENT TESTIMONY CAPTURE

Comprehension and Retention

The lawful administration of justice depends on testimony and evidence being captured and presented as objectively as possible. The audio and video quality of HARMAN sound reinforcement and video capture technology ensures testimony is captured with complete accuracy.

HUDDLE SPACE

Collaboration In An Instant

Designed to enable effective, small-group collaboration, huddle spaces allow effortless viewing and sharing of content, no matter the source. HARMAN technology allows personnel to quickly collaborate in the room and around the world.

TRAINING THEATER

Instruct Your Remote Team

These spaces serve high-capacity training classes with the ability to record and include remote participants. HARMAN technology improves collaboration and class participation by allowing instructors and students to share content from laptops, tablets, and mobile devices.
