YOUR PARTNER FOR EXCEPTIONAL WORSHIP EXPERIENCES

At JPRO, we believe clear communication and immersive sound help bring people together.

For over 35 years, we've partnered with churches and worship communities across New Zealand, delivering world-class audio, video, and control solutions that ensure every message is heard — and every moment is felt.

Why Houses of Worship CHOOSE US

Leading AV Solutions Distributor:

Proudly New Zealand owned and operated, JPRO represents some of the world's most trusted professional audio and AV brands. For crystal clear speech intelligibility, powerful worship music production to seamless integration of video projection and streaming.

Specialists in Worship Spaces:

From small parish churches to large contemporary worship centres, our AV design team works with you to understand the unique acoustic and technical demands of your space.

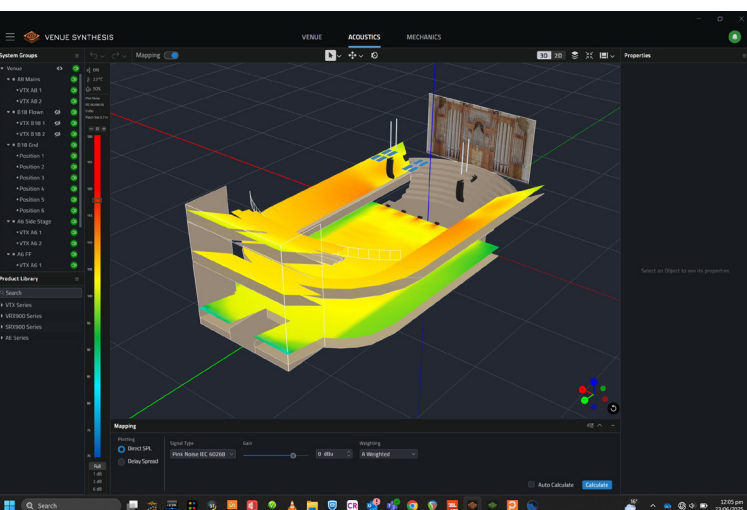

Nationwide Network:

We work closely with a trusted network of specialist integrators, consultants and installers throughout New Zealand.

DESIGN . SUPPLY . SUPPORT

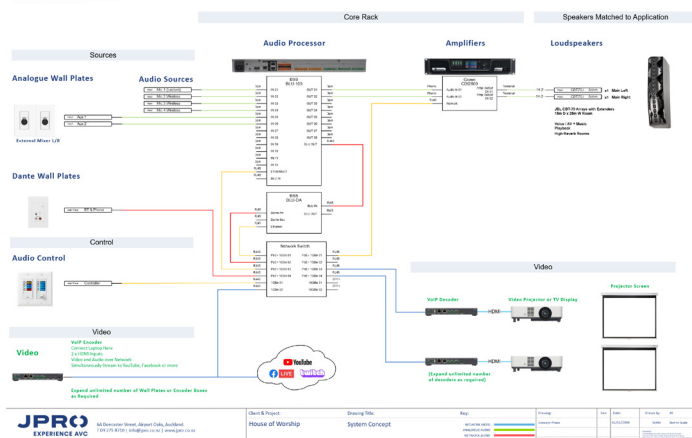

We don't just sell boxes. We work alongside you to design a system that's fit for purpose and future-ready – and we stand by you with post-sales support, training, warranty service and local technical expertise whenever you need it!

PRODUCT GUIDE

COLUMN LOUDSPEAKERS Beam-shaping Intellivox & CBT

JBL's Intellivox and CBT column speakers are designed for clear, consistent speech intelligibility in challenging acoustic environments like churches and cathedrals.

Their slim profile blends seamlessly into heritage or modern spaces while precisely and clearly directing your message to the congregation.

LINE ARRAY SYSTEMS SRX900 & VTX A Series

Whether it's powerful live worship music or spoken word for a large congregation, JBL's SRX900 and VTX A Series line arrays deliver stunning clarity and even coverage.

Flexible configurations make them ideal for sanctuaries, auditoriums, or multipurpose worship centres.

INSTALL LOUDSPEAKERS Ceiling, Pendant, On-wall

From discreet ceiling speakers for foyers and overflow rooms to stylish pendant and on-wall options for multipurpose spaces, JBL's installed loudspeakers ensure every corner of your worship space is covered with warm, balanced sound — all while maintaining your architectural and design aesthetic.

DSP, AMPLIFICATION & CONTROL Design, Install and Relax

Take full control of your audio system with BSS BLU processors and Crown amplifiers — trusted for reliability and clean power.

Varia touchpanels and Omni keypads make daily operation simple for volunteers and staff, so services run smoothly every time.

You decide what you want to control - from sound, video, lights, projectors, screens, streaming etc

AMX VIDEO TRANSPORT SVSi N2600 4K60

The AMX SVSi N2600 Series makes it easy to distribute high-quality video throughout your worship spaces.

Stream sermons, project visuals, or share your message live — all with flexible, reliable IP-based video that's simple to scale.

ASSISTIVE LISTENING B-Caster

Ensure everyone hears your message clearly with Betteam B-Caster Auracast — a modern assistive listening system using Bluetooth LE technology.

Betteam provides inclusive access for worshippers with hearing difficulties and enhances translation services by streaming real-time audio directly to listeners' devices, helping everyone stay connected and engaged.

MICROPHONES Wireless Lapel, Headset, Handheld and Installed Lectern Microphones

From discreet lapel and headset mics for pastors to gooseneck microphones for lecterns and robust handhelds for worship teams.

AKG delivers exceptional sound capture.

Dependable wireless systems keep services flexible and free of cable clutter.

DIGITAL & ANALOGUE CONSOLES Si, Ui & more

Soundcraft's digital and analogue mixing consoles, like the Si and Ui Series, offer intuitive control for volunteer operators and professional engineers alike.

Deliver polished audio for spoken word, live bands, or streaming — all with renowned Soundcraft quality.
